Projected Edible Food Recovery Capacity Estimates

Section 18992.2. Edible Food Recovery Capacity.

(a) Counties, in coordination with jurisdictions and regional agencies located within the county, shall:

(1) Estimate the amount of edible food that will be disposed by commercial edible food generators that are located within the county and jurisdictions within the county.

Using the CalRecycle’s SB 1383 Edible Food Recovery Capacity Planning Calculator Tool, the Amador’s Tier 1 and 2 Generators are projected to dispose of 302,710 pounds of edible food by December 31, 2024.

Edible Food Calculator Assumptions:

Change in Population Over Reporting Period:

Based on DOF Table 1: E-4 Population Estimates for Counties and State
2021-2022 with 2020 Benchmark

COUNTY	4/1/2020	1/1/2021	1/1/2022
Amador	40,474	40,287	40,297

We assumed a population increase by the end of 2024 to be 40,500.

Edible Food Disposal Conversion Factors:

6 Supermarkets - Uses the 2018 CR Waste Characterization Study estimate of 9,300 #/yr/facility

6 Grocery Stores - Uses the 2018CR Waste Characterization Study estimate of 9,300 #/yr/facility

County Fair - Uses the NRDC estimate for 30,000 visitors at 0.45 #/per visitor (13,500#/yr)

Kit Carson Nursing Center - Uses the NRDC estimate of 1.8 pounds/bed/day for 199 beds

Amador County Unified School District - Uses the restaurant calculation of 1,900 #/yr for 4,000 students/250/2 for 1.5 meals /day

Mule Creek Prison - Uses the restaurant calculation of 1,900 #/yr for 3,300 inmates/250

(2) Identify existing capacity at food recovery organizations identified in Section 18982(a)(25)(A)–(B) that is available to commercial edible food generators located within the county and jurisdictions within the county.

Interfaith Food Bank (IFB) Capacity:

IFB has indicated that they currently have the capacity to accept an additional 100,000 pounds per year. Added to the 1,292,172 pounds of food distributed in 2021 brings the capacity total to 1,392,172 pounds per year.

IFB purchased a 6,700 square foot building in July 2022 for warehouse use only. SB 1383 Local Assistance Grant funds will be used to purchase a walk-in freezer for the warehouse. Assuming pallets average 1,500 pounds, the warehouse can store approximately 25 pallets, and pallets will turn over an average of every two months, the added capacity is 225,000 pounds for a total of 1,617,172 pounds per year.

IFB also has a new van ordered to add to the fleet for donation pickups.

In addition, IFB has already ordered a new food truck that has a refrigerator/freezer for distributions to remote areas of the County on scheduled days to increase its distribution to families that cannot make the drive to Jackson for direct pickup.

(3) Identify proposed new or expanded food recovery organizations and food recovery services that will be used to recover edible food identified pursuant to Subdivision (a)(1).

The Amador Waste Management Department is not aware of any expansion plans for existing food rescue organizations, or new entities that intend to provide these services in future.

(4) Identify the amount of new or expanded capacity, if any, at food recovery organizations and food recovery services that is necessary to recover the edible food that is estimated to be disposed by commercial edible food generators in (a)(1).

Using the CalRecycle’s SB 1383 Edible Food Recovery Capacity Planning Calculator Tool, as the annual food recovery capacity for Amador County far exceeds current projected annual edible food disposal, no additional food recovery planning appears to be needed at this time. However, Amador County and its Cities intend to support and improve the capacities for providing additional food recovery and redistribution in Amador County in the coming years.

Edible Food Capacity Report Fields

THIS FRANCHISE AGREEMENT (“Agreement”), made and entered into this 1st day of September, 2022, between the City of Amador City (“City”), a municipal corporation of the State of California, and ACES Waste Services, Inc. (“Contractor” or “ACES”), a California corporation. This agreement supersedes the previous Franchise Agreement between the City and Contractor, dated November 12, 2009.

Territory annexed to the City shall be added to the franchise area granted by this Agreement, and Contractor shall be permitted to adjust rates to be consistent with his corresponding schedule within said area.

ARTICLE C. FRANCHISE PURPOSE, TERM, AND COMMENCEMENT

City chooses to exercise its authority under Public Resources Code § 40059, its police power authority under the Constitution of the State of California, and other applicable law, including the Amador City Municipal Code, Chapter 8.13, to grant an exclusive franchise for the collection and disposal of all solid waste, garbage, refuse, construction and demolition debris, green waste, organic waste, and recyclable materials as more fully set forth herein. Notwithstanding this grant of franchise, City retains and reserves to itself the full authority to regulate, correct, and control all activities of the franchise, including removal, termination, and suspension.

To the maximum extent allowed by law, City shall provide for Contractor's exclusive control of all solid waste, garbage, refuse, green waste, organic waste, construction and demolition debris and discarded recyclable materials ("Collection Materials") upon relinquishment of ownership by placement in the refuse collection and disposal system operated by Contractor.

2. Exclusive Franchise. City grants to Contractor the exclusive right to collect and dispose of the Collection Materials within City for the period commencing upon the operational date of this Franchise which is September 1, 2022 and continuing to and including August 31, 2037, with the further provision that this Franchise may be extended for an additional term of five (5) years upon consent of both parties.

Contractor shall commence collection, hauling and disposal operations under this Agreement on the operative date of this Franchise. Upon Franchise expiration, termination, or upon any application for an extension other than the automatic extension provided in this subsection by Contractor, City shall have the full right and authority to solicit proposals from any and all interested persons for these franchise privileges, without any obligations to or preference for the contractor herein.

ARTICLE D. REPRESENTATIONS, WARRANTIES AND COVENANTS

1. Representations and Warranties of Contractor. Contractor hereby makes the following representations and warranties for the benefit of the City as of the effective date of this Agreement:

- A) Contractor is duly organized and validly existing as a corporation in good standing under the laws of the State of California;

- E) Contractor has sufficient financial resources to perform all aspects of its obligations hereunder;
- F) Contractor has the expert, professional and technical capability to perform all of its obligations under this Agreement.

2. Representations and Warranties of the City. The City hereby makes the following representations and warranties to and for the benefit of Contractor as of the effective date of this Agreement:

- A) The City is a California municipal corporation, duly organized and validly existing under the laws of the State of California, with full legal right, power and authority to enter into and perform its obligations under this Agreement;
- B) The Party executing this Agreement on behalf of the City is duly authorized by the City Council to do so. This Agreement constitutes the legal, valid and binding Agreement of the City and is enforceable against the City in accordance with its terms.

3. Contractor's Covenants. Contractor covenants it shall obtain and deliver to City within 15 days of the Effective Date, the following documents;

- A) **Certificates of Insurance.** Contractor shall furnish the City with satisfactory Certificate(s) of Insurance in the form and according to the provisions of Article F of this Agreement. Such certificates shall be signed by Contractor's insurer, and shall clearly state the types of and amounts of coverage required under Article F, the effective dates and expiration dates of the policies, and all required endorsements, unless current copies have already been provided to City by Contractor.

ARTICLE E. COMPLIANCE WITH LAW, PERMITS

1. Compliance with Law. Contractor shall comply, at its expense, fully and faithfully with all local, state and federal and state laws, ordinances, regulations and permit requirements, as they may be amended from time to time, applicable to its performance under this Agreement or in any way related to Contractor's performance of the services required under this Agreement; including but not limited to local, state, and federal laws, ordinances and regulations relating to collection, disposal and

processing of solid waste, recyclables, and yard waste; and laws, ordinances and regulations relating to protection of the environment. Without limiting the generality of the foregoing, Contractor shall, at its sole expense, prepare and complete, or arrange for the preparation and completion, of, any environmental impact report or other environmental reviews required under applicable local, state and federal law for the construction, modification or operation of physical plants, if any, necessary to perform the services provided under this Agreement.

2. Permits, Authorizations, Licenses. Contractor shall obtain and shall maintain throughout the term of this Agreement, at Contractor's sole expense, all necessary permits, licenses, inspections and approvals required for Contractor to perform all the work and services agreed to be performed by Contractor pursuant to this Agreement. Contractor shall show proof of such permits, licenses, or approvals upon the request of the City.

3. SB 1383 Compliance. California's SB 1383, adopted in November of 2020, requires local governments to reduce landfill disposal of organic waste by 75% by 2025 and to increase edible food waste recovery by 20%, subject to certain rural jurisdiction waiver(s). These regulations are the most far-reaching solid waste management changes in decades and implementation has been estimated at a cost of \$20 to \$40 billion over the next decade which will have an unavoidable impact on collection rates. Contractor shall collaborate with City to implement a program under SB 1383 and/or seek a waiver or exemption pursuant to 14 CCR §§ 18984.11 and 18984.12. If a waiver or exemption is obtained and valid until December 31, 2026 or until five (5) years after the date CalRecycle makes a determination that the statewide disposal of organic waste has not been reduced to 50 percent (50%) of the level of disposal during the 2014 calendar year, whichever is later, the Parties shall collaborate to have a City wide SB1383 organic waste program compliant with the then current applicable regulations in place. Upon the Effective Date, Contractor and City shall collaborate to implement an Education and Outreach Program and Reporting Program, and any other requirement in compliance with SB 1383 requirements not subject to waiver and/or exemption.

ARTICLE F. INDEMNIFICATION AND INSURANCE

1. Contractor's Duty to Indemnify City. To the maximum extent allowed by law, Contractor shall protect, defend, indemnify and hold harmless the City, its agents, officers, employees, successors, and appointed and elected officials (collectively, "Indemnitees") from and against all liabilities, claims, suits, allegations, actions, damages, interest, penalties, fines, and/or causes of action (collectively "claims") arising from or in connection with Contractor's exercise of the franchise, or which are caused by Contractor's failure to comply with laws legally binding on Contractor which are described in Article E. Contractor shall to the maximum extent allowed by law, indemnify and hold harmless the Indemnitees from and against all costs of investigations, litigation, negotiation or alternative dispute resolution; counsel fees' expenses incurred in obtaining expert testimony and the attendance of witnesses; and all other expenses and liabilities incurred in connection with the defense of any action or proceedings brought thereon, and from and against any orders, judgments or decrees which may be entered thereon, except to the

extend such claims arise solely out of the active negligence or willful misconduct of the City. In the event of legal challenge to the issuance of this franchise, City shall be responsible for defense of any legal action arising from allegation of procedural irregularities in the granting of the franchise. Contractor shall be responsible for, and shall indemnify and hold City harmless from, any legal action arising from the award of this franchise to Contractor, including any allegation of unfair business practices in the obtaining of the franchise, save and except for any procedural irregularities in granting the franchise. The City shall provide Contractor with prompt notice of any claims, and Contractor may assume the defense of any claim. Contractor shall have authority to settle any claim, provided such settlement fully releases and extinguishes Indemnitees' alleged liability under the claim. The provisions of this subsection shall survive the termination of this Agreement.

AB939 Indemnification.

A) To the maximum extent allowed by law, Contractor shall protect, defend with counsel reasonably acceptable to the City, indemnify and hold the City harmless from any and all fines, penalties and assessments levied against or threatened to be levied against the City for the City's failure to meet the requirements of AB939, its amendments or any successor legislation and/or all rules and regulations promulgated thereunder, if said failure results from Contractor's failure to comply with this Franchise Agreement and/or Contractor's failure to comply with said laws, rules or regulations binding on Contractor, including but not limited to failing to timely supply to the City the reports and information required by the City in order to comply with AB939. However, Contractor shall not be obligated to indemnify City for fines or penalties caused by City's own acts or omissions which result in City's failure to provide timely reports to the State.

B) Contractor agrees to indemnify and hold harmless the City against all fines and/or penalties imposed by CalRecycle based on Contractor's failure to comply with laws, regulations or permits issued or enforced by CalRecycle or the LEA or caused or contributed to by Contractor's failure to perform obligations under this Agreement. This indemnity obligation is subject to the limitations and conditions in California Public Resource Code Section 40059.1 but is enforceable to the maximum extent allowable by that Section. 3. No Collection or Disposal of Hazardous Waste. Except as provided in this subsection, Contractor shall not collect, handle, process, transport, arrange for the transport of or dispose of Hazardous Waste pursuant to this Franchise Agreement.

4. Enforcement. The burden of enforcement of the provisions of this Agreement, and all other pertinent local, State and federal laws pertaining to the Amador City solid waste program shall be borne by City as follows:

A. The City Manager shall oversee and be responsible for the enforcement of all other facets of the City's solid waste program, including oversight and coordination with City's franchised contractor and the administration of this Agreement.

B. Any complaints regarding the City solid waste program, whether submitted directly to (or by) City or Contractor, or to (or by) an intermediate agency such as the Amador City Code Enforcement Office or any other local, State or federal law enforcement office that cannot be resolved in a reasonable time and manner by the Contractor shall be administered by the City Manager. The City Manager shall investigate the complaint and determine the proper jurisdiction for the resolution of the complaint and forward it to the appropriate agency.

C. A complaint under this Section against Contractor may result in a finding of default by the City Manager after a due investigation and opportunity for Contractor to be heard in defense of itself. City may use any remedies available to it listed in this Agreement and/or at law to enforce a finding of default against Contractor. Any finding of default against Contractor shall be subject to Contractor's appeal rights and ultimate finding by the City Council.

D. Contractor has exclusive franchise rights for the collection, removal, transport, use and disposal of solid waste and targeted recyclables in Contractor's franchise area of Amador City per the City Code and this Agreement. City shall use all reasonable remedies available to it to insure that those rights are enforced,

including any such enforcement measures described in the City Code and the penalties at law for said violations, against third party violators. Nothing in this Section shall limit Contractor's right to independently seek enforcement of those rights against third Party violators, including, but not limited to all available remedies at law and in equity, including seeking injunctive relief against such third party violators and recovery of attorney's fees and costs against violator.

E. Upon Contractor's notice to City of any person or entity perceived to be in violation of Contractor's exclusive franchise rights hereunder, such person or entity shall be advised in writing by City to immediately cease such activities after City has investigated and verified such notification. City's notification to such person or entity shall include enforcement measures described herein and/or otherwise permitted by law. If such person or entity continues to violate Contractor's exclusive franchise rights after notification by City, Contractor shall have the right to impound any waste container used in violation of Contractor's exclusive franchise rights or any other applicable legislative requirements described in the applicable Sections of Chapter 8.12 of the Amador City Municipal Code of the City Code, the *California Integrated Waste Management Act of 1989*, and all other pertinent local, State and federal laws pertaining to the Amador City solid waste program. Nothing in this provision shall limit Contractor's independent right to enforce its exclusive franchise through any legal means.

F. Notwithstanding Contractor's right to independently enforce its exclusive franchise through any legal means necessary, City shall retain all of its rights with regard to pursuing or not pursuing remedies concerning violations or alleged violations of City's solid waste ordinance or other ordinances. Any and all prosecutorial discretion shall lie solely and absolutely with City.

ARTICLE S. PROPOSITION 218

1. **Proposition 218 Compliance.** City shall be responsible for complying with all requirements of XIID of the California Constitution and all requirements of Government Code Section 53750 *et seq.* (collectively, "Proposition 218"), to the extent compliance with Proposition 218 is required. Contractor shall cooperate with City in providing the records and documentation, including customer and mailing lists with corresponding assessor parcel numbers, necessary to provide all notices and information required to conduct majority protest proceedings under Proposition 218. In conducting such proceedings, City shall consult with Contractor, as necessary, and shall keep Contractor reasonably informed of the progress concerning each protest hearing City conducts. However, City shall at all times act independently of Contractor in administering majority protest proceedings and shall at all times exercise its own judgment in ascertaining and applying the requirements of Proposition 218.

2. **Reimbursement for Expenses of Proposition 218 Compliance.** Following the completion of any proceeding under Proposition 218, Contractor shall reimburse City for all expenses incurred in providing notices to affected ratepayers and conducting the majority protest proceeding required by that initiative. Such expenses

shall include the reasonable costs that City administration, staff, and counsel incur in providing or administering the notices, hearing, and counting of protests required.

3. **Reductions in Service Following Majority Protest.** Following a majority protest to any requested rate increase, the Parties shall promptly meet and confer to discuss the impact to Contractor on its ability to provide further services under the Agreement. As part of their efforts to meet and confer, the Parties shall discuss modifications to the services Contractor provides, or reductions in the levels of service it provides, that would allow Contractor to continue to receive a reasonable profit under the Agreement. Should the Parties agree on modifications and/or reductions in service, they shall enter into a separate amendment to the Agreement to memorialize the agreed upon terms. In no event, however, shall any modification in service or reduction in the service level be authorized in violation of any minimum performance standard governing the collection of solid wastes and recycled materials, including but not limited to any provision of the Integrated Waste Management Act ("AB 939"), Titles 14 and 27 of the California Code of Regulations, and Section 8.12.010 of the Amador City Municipal Code.
